

TUTORIAL DISCUSSION (5)

1. There are four direct objectives and two indirect objectives attached to the various review methods.
 - a) List the direct and indirect objectives of each review method surveyed.
 - b) For each objective, indicate the review technique or techniques that contribute(s) the most to achieving that objective.

2. One of the objectives of reviews is to identify deviations from templates, style procedures and conventions. Explain the importance of enforcing templates and sticking to style procedures and conventions

3. One can expect that in many cases, participants in an inspection session are able to suggest solutions for a detected defect or, at least, point out possible directions for its solution. While it is clear that these suggestions are crucial for the development team, it is commonly recommended to avoid any discussion about solutions during the inspection session.
 - a) List your arguments in favor of this recommendation.
 - b) What other kinds of cooperation between the moderator and the review team would you prefer to observe in a session?
